

Urgent Correspondence from a United States Veteran To The Secretary of Veteran Affairs

The Honorable Eric Shinseki
Secretary of Veteran Affairs
800 Vermont Avenue NW
Washington, DC 20420

Dear Secretary Shinseki,

I am writing to you as a deeply concerned Veteran of the United States Military Service.

Mr. Secretary there is one of the finest Hospitals in the State of New Jersey, right here in Southern, New Jersey. This hospital, Shore Memorial, has a very proactive and innovative public relations and media division. Recently there has been an enormous amount of publicity about an extraordinary **Veteran Health Services Pilot Program** that Shore Memorial Hospital in Somers Point, New Jersey, will be developing with other interested and concerned parties.

This proposal would offer radiation treatment and dialysis treatment to our Veterans locally, *and that is the key Mr. Secretary.....local treatment.* It would be an enormous relief and great assistance to eliminate the necessity of these ailing great United States Veterans to travel out of the area or out of state! Currently, our veterans must travel to locations of VA Medical Centers in locations such as Delaware or Philadelphia

We can all relate to having a very sick family member, dear friend, or brother or sister Veteran with a devastating health crisis. This would be an extraordinary opportunity for our veterans to get the highest quality dialysis or radiation, right in their own neighborhood with familiar surroundings with their family and friends close by their side.

Thank you for your time and consideration. This is an urgently needed and beneficial Program.
Sincerely,

Signature
